EDUCATION

2023 – 2026

Product Design BA

Istituto Marangoni London

Winner, global Marangoni competition – Germina exhibited at Salone del Mobile 2026

Academic projects: Komore, Germina, Ramora, Kōgōshii Kampai, Floating Beam, Cloud Chair, Tramonto Lamp, S-help, Oleace – full portfolio at alexandrepalusceccaldi.com

2016 – 2020

Architecture

University of East London

2013 – 2016

IB Diploma

EXPERIENCE

Jun – Sep 2025

Design Intern — Chafik.Studio

Paris, France

- Researched existing building fixtures – smoke detectors, cameras, motion sensors, ceiling speakers – to inform a unified design language.
- Redesigned home fixtures to meet country-specific regulations while preserving each one's essential components.
- Built physical prototypes through 3D modelling and 3D printing to unify the fixture family.

Rhino · 3D Printing · Prototyping

Feb 2021 – May 2023

International Store Planning Designer — Alexander McQueen

London, United Kingdom

- Developed creative concepts and design intent in line with brand identity, from client brief through final presentation.
- Produced full design documentation – 3D renders, floor plans, elevations, mood-boards, and joinery details.

Paris · Atlanta · Macau

EXPERTISE

Concept Development

Translating research and client briefs into design concepts, from architecture fixtures to luxury retail.

3D Modelling & Rendering

Rhino modelling and realistic renders for client presentations and design development.

Material & Prototyping

Physical prototyping and 3D printing across leather, aluminium, and wood.

Technical Drawing

Floor plans, elevations, and joinery detail packages for international retail projects.
